

# AP781130-01\_8GB **Spencer** USB power bank and flash drive

## USER MANUAL

**IMPORTANT SAFETY PRECAUTIONS:** Before use please note the following safety precautions. Failure to comply may be dangerous and cause damage to your mobile electronic devices.

- The power bank unit contains an internal 2500mAh lithium ion battery. Upon initial use or after a prolonged period of storage, fully charge the unit before use. The unit will reach its maximum performance after 2 or 3 full charging and discharging cycles.
- Using an incorrect power adaptor or USB cable could cause damage to both your mobile devices and the Power Bank.
- Do not submerge in water or expose to adverse weather conditions.
- Avoid dropping the device.
- Keep the device away from fire and high temperatures.
- Keep the device out of reach of children.
- During charging, the Power Bank case may become slightly warm. This is normal as the charging and discharging process generates heat.

## SPECIFICATIONS:

Capacity: 2500mAh – Lithium Battery.

Input: DC5V / 500mA.

Output: DC5V / 1000mA.

Battery Life: More than 500 charging cycles.

With Micro USB cable.

## INSTRUCTIONS:

**Indicator light:** During the charging process a red light will appear on the portable power device. The light will change to blue once the charging process is complete.

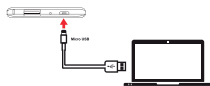

- Charging the portable power device: Connect the micro USB connector cable to the Input port (2) on the portable charger. Connect the standard USB port to the power source such as a power adapter, computer's USB port or any other USB source.
- Charging mobile devices: Connect the USB cable to the mobile device using the appropriate connector. Connect the other end of the USB cable to the Output port (1) of the portable charger.
- Remove the USB cable at the end of each process.
